UNITED WAY OF THE COASTAL BEND

Save time at your rally or employee meeting by... Personalizing Pledge Cards

- UWCB pledge cards are available to all companies running campaigns at no charge, alleviating printing costs for the company producing their own cards.
- Pledge cards can be pre-printed with employees' personalized data. This will save time at your rallies. Employees won't have to fill out information that you already have on file. You will need to provide your data to United Way in an electronic format (MS Excel, Comma Delimited or Text). An MS Excel template is available to make it easy.
- Other information, such as your company logo, the employee's previous year's gift or incentive gift announcements can be added as space allows.
- Pledge cards can be turned in to UWCB with no prepping or processing done by the company. Information such as employee name, employee number, total pledge, per pay period pledge and department number will be supplied to the company in an electronic format (Excel, csv, txt) within one week of receiving the pledge cards.
- Companies can then import the information directly into their own payroll system, reducing or eliminating manual entry of payroll deductions.
- Companies can be provided with an electronic copy of their employees' pledge cards (PDF format) with signature to eliminate the need for filing paper pledge forms in personnel files. Original paper pledge forms are kept on site at UWCB offices for 7 years and can be provided to the company when requested.
- Scanned information is transmitted to and from UWCB over dedicated private data lines that employ triple DES encryption and secure internet data transmission Verisign 128-bit SSL data encryption.
