2009 - 2010  
ANNUAL REPORT

# LIVE UNITED ADVANCING THE COMMON GOOD

Community Impact is a philosophy premised upon improving lives by mobilizing communities to create lasting changes in community conditions.

This is done by achieving measurable results through strategies that focus on community systems and resources - focusing on funding programs that improve outcomes in three select impact areas: **EDUCATION, INCOME** and **HEALTH** - the building blocks for a good life. A quality education that leads to a stable job will provide income that can support a family through retirement and in turn, promote good health.

**WE ARE CREATING OPPORTUNITIES FOR A GOOD LIFE BY FOCUSING ON:**

## EDUCATION

Helping children reach appropriate developmental milestones, achieve academic success and develop life skills

## INCOME

Meeting basic needs while increasing employability, gaining & growing assets leading to financial independence

## HEALTH

Providing information, education and services to promote healthier lifestyles for all

## OUTCOME MEASURES

A Community Impact approach helps United Way contributors have an even greater effect on their community by creating measurable and lasting changes in the lives of those in need.

Our Funded Partners have developed specific strategies for each impact area and we have tracked their progress, as you'll see in the following pages. Together our efforts work at solving these problems, beyond just managing them. And, by partnering with people who can devote their time and talents toward a positive outcome, we are seeing success.
