Every day, donors like you change someone’s life. Our monthly newsletter is a way to share success stories so you know how your donations help the Coastal Bend community.

We Use Your Donations to Change Lives Long-Term

After losing both of his parents, one man struggled emotionally and financially and found himself in need of both food and shelter. A Salvation Army program, funded in part by United Way of the Coastal Bend, was there to help with a warm meal and a safe place to sleep.

In February, he was placed in an apartment through Salvation Army - Corpus Christi’s Permanent Supportive Housing Program, a program United Way of the Coastal Bend supports through the Community Investment Fund. He was placed with a case worker and started rebuilding his life.

The Permanent Supportive Housing Program changes the cycle of homelessness by placing clients in apartments and providing ongoing services that help them obtain and maintain financial independence.

“There is no other place in this town that has helped me as much as Salvation Army has.”

Through regular visits with his case worker, this man is on his way to gainful employment, affording a place to live and living a better life. He regularly returns to Salvation Army to volunteer with the goal of helping as many people as he can.

By giving to United Way of the Coastal Bend, you support programs like this and truly change lives.

Help Local Students by Supporting Operation SOS

More than 45,000 Coastal Bend children don’t have the basic school supplies needed for their first day of school. Every year, we partner with H-E-B and KRIS Communications to raise money and purchase supplies so these students can have a successful start to the school year. Visit our website for the five easy ways you can help.
